## MATHEMATICS UNIT 1: NON-CALCULATOR FOUNDATION TIER

THURSDAY, 24 MAY 2018 – MORNING

1 hour 30 minutes

#### ADDITIONAL MATERIALS

The use of a calculator is not permitted in this examination. A ruler, protractor and a pair of compasses may be required.

### INSTRUCTIONS TO CANDIDATES

Use black ink or black ball-point pen. Do not use gel pen or correction fluid.

You may use a pencil for graphs and diagrams only.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer **all** the questions in the spaces provided.

If you run out of space, use the continuation page at the back of the booklet. Question numbers must be given for all work written on the continuation page.

Take **♦** as 3.14.

#### INFORMATION FOR CANDIDATES

You should give details of your method of solution when appropriate.

Unless stated, diagrams are not drawn to scale.

Scale drawing solutions will not be acceptable where you are asked to calculate.

The number of marks is given in brackets at the end of each question or part-question.

In question **6**, the assessment will take into account the quality of your linguistic and mathematical organisation, communication and accuracy in writing.

6. In this question, you will be assessed on the quality of your organisation, communication and

Instruction

accuracy in writing.

Step

A computer program has 6 steps.

In step 4, the value of the percentage is missing.

1	INPUT a number.	
2	Multiply the INPUT number by 3.	
3	Calculate <sup>2</sup> of the INPUT number.	
4	Calculate % of the INPUT number.	
5	Add the answers to step 2, step 3 and step 4.	
6	Print the answer to step 5.	
The INPUT number The computer prints	is 15. s the answer 62·5.	
What is the value of	the percentage missing from step 4?	
		[4 + 2 OC]//
You must show all y	our working.	[+ + 2 0011]
You must show all y	our working.	[+ 1 2 0000
You must show all y	our working.	
You must show all y	our working.	
You must show all y	our working.	
You must show all y	our working.	
You must show all y	our working.	
You must show all y	our working.	
You must show all y	vour working.	
You must show all y	Your working.	
You must show all y	Your working.	
You must show all y	/our working.

8.	Look at the diagram below.	
	The term in each square in the top two rows is found by using the following rule:	
	The term in any square is the sum of the terms in the two squares below it.	
	Some terms are already shown.Use the rule to write down the missing terms in the three empty squares.[3]	]
	Space for working:
